**Aim:** This review explored peer-reviewed publications that measure nurses' preparedness for disaster response. **Background:** The increasing frequency of disasters worldwide necessitates nurses to adequately prepare to respond to disasters to mitigate the negative consequences of the event on the affected population. Despite growing initiatives to prepare nurses for any disasters, evidence suggests they are under prepared for disaster response.

## **Disaster preparedness among nurses: a systematic review of ...**

Disaster training and preparation for any type of emergency is an essential function of the emergency nurse.<sup>12</sup> Emergency nurses face both balance and responsibility to address the changing climate in the modern landscape of healthcare, where historically, “nurses have long been faithful to our contract with society, which obligates us to promote

## **The Role of Emergency Nurses in Emergency Preparedness and ...**

Disaster preparedness, response, and recovery are critical components of public safety. Public health nurses who understand the population-based nature of a disaster response and possess the knowledge and skills to respond in a timely and appropriate manner to any type of disaster are a vital component to this process (APHN, 2014).

## **Understanding Disaster Preparedness | RN Continued Education**

The Disaster Nursing Call to Action was initiated by Veterans Emergency Management Evaluation Center in 2014 to improve nursing readiness. Those efforts have resulted in the formation of the Society for the Advancement of Disaster Nursing and a commitment to make every RN ready to respond to a disaster event or public health emergency.

## **Society for the Advancement of Disaster Nursing | Every ...**

All nurses, including registered nurses, and other health care professionals play an important role in internal and external disasters and emergency preparedness. Registered nurses are also frequently asked to participate as a member of a work group or committee in order to generate, evaluate and revised internal and external disaster plan and also to:
