New Agricultural Machinery Market Research Report in India ...

Agriculture is the backbone of the Indian economy, but the industry currently needs more support than any other. India is a country of over a billion people in population, out of which, over 70% of the population lives in the rural areas. With 40% of the country's workforce, agriculture is a major industry and an influencer of the Indian economy. Despite this, its contribution to the \$2.3 trillion economy is just a meager 16% of the entire GDP.
