Here's how to find free books (both public domain and otherwise) through Google Books.

### Logics Of Worlds Being And

Logics of Worlds is the long-awaited sequel to Alain Badiou's much-heralded masterpiece, Being and Event. Tackling the questions that had been left open by Being and Event, and answering many of his critics in the process, Badiou supplements his pioneering treatment of multiple being with a daring and complex theory of the worlds in which truths and subjects make their mark - what he calls a materialist dialectic.

Logics of Worlds: Being and Event II is a challenging and impressive extension, and in some ways, re-visioning, of that monumental project. Like its predecessor, the new work is characterized by a careful mathematical formalism which underpins erudite, poetic discussions of ethics, politics and aesthetics, making it difficult to situate the text within any traditional philosophical category.

Kripke semantics (also known as relational semantics or frame semantics, and often confused with possible world semantics) is a formal semantics for non-classical logic systems created in the late 1950s and early 1960s by Saul Kripke and André Joyal. It was first conceived for modal logics, and later adapted to intuitionistic logic and other non-classical systems.
