Reference Format Scientific Paper

Scientific Style and Format presents three systems for referring to references (also known as citations) within the text of a journal article, book, or other scientific publication: 1) citation-sequence; 2) name-year; and 3) citation-name. These abbreviated references are called in-text references. They refer to a list of references at the end of the document.

Scientific Style and Format Online - Citation Quick Guide

The most common way to cite sources is to use a "Works Cited" or "References" list at the end of your research paper. "Works Cited" is the title of your list of citations when using the MLA (Modern Language Association) format; the title "References" is used when citing sources using APA (American Psychological Association) style. The list includes a citation for each of the sources you used to write your paper.
