SPEED AND THRASH METAL GUITAR METHOD CASSETTE PKG ...

Thrash metal (or simply thrash) is an extreme subgenre of heavy metal music characterized by its overall aggression and often fast tempo. The songs usually use fast percussive beats and low-register guitar riffs, overlaid with shredding-style lead guitar work. The lyrical subject matter often deals with criticisms of The Establishment and concern over the destruction of the environment, and at ...

Thrash metal - Wikipedia

Basic thrash metal speed picking. After going through the two lessons above, you should know how to position your picking hand for palm muted riffs. The most common techniques used in thrash metal involve fast alternate picking (sometimes called tremolo picking) whilst palm muting. Most often, it's done on one string at a time, but you can widen your picking sweep over a two-string powerchord for a chunkier sound.

Speed metal is an extreme subgenre of heavy metal music that originated in the late 1970s from new wave of British heavy metal roots. It is described by AllMusic as "extremely fast, abrasive, and technically demanding" music. "It is usually considered less abrasive and more melodic than thrash metal, showing less influence from hardcore punk. However, speed metal is usually faster and more aggressive than traditional heavy metal, also showing more inclination to virtuoso soloing and featuring sh
