Prototype ...

Starships within the Federation, much like those found throughout the universe, were built with decks which served as the primary setting for all equipment, rooms, corridors, and personnel. The numbers for the deck count typically ran from top to bottom of a starship, beginning with deck 1. There was no set number of decks within Starfleet or Federation ships, as it varied from class to class.

The windows and MSD also show 19 decks. His 15+3 deck design would give a deck height of 4.83m, which is way too tall.

Read Book Star Trek Starship Deck Plans

Everything fits into 15 decks pretty well, so my guess is that he made the artistic decision to shrink the ship down to 15 decks rather than add in more hanger space, cargo space, holodecks, etc.

The USS Theurgy (NX-79854) was the prototype of the Theurgy-class of Federation starships launched in the 24 th century. An experimental prototype, she was designed for long-range exploration, diplomacy, and deterrence - a Multivector Dreadnought. She was the ship that played a highly central role in the war against the parasites that had usurped the power from Starfleet Command, while she was ...
