Nearly half of all adults in the United States report that concerns over unexpected medical bills keeps them from seeking care, according to the results of a survey by the American Heart Association.

Nearly half of U.S. adults fear surprise bills, do, - UPI.com

Sitting is an independent risk factor for heart disease. Even if you exercise regularly, it's still smart to decrease your sitting time throughout the day. "It seems to be very helpful for one's heart health," says Johns Hopkins cardiologist Michael Blaha, M.D., M.P.H. Arteries are only about 4 millimeters in diameter.
