The Archaeology of China: From the Late Paleolithic to the Early Bronze Age. Li Liu, Xingcan Chen. This book explores the roles of agricultural development and advancing social complexity in the processes of state formation in China. Over a period of about 10,000 years, it follows evolutionary trajectories of society from the last Paleolithic hunting-gathering groups, through Neolithic farming villages, and on to the Bronze Age Shang dynasty in the latter half of the second millennium BC.

The Archaeology of China: From the Late Paleolithic to the ...

This excavation thus marked the beginning of a modern Chinese archaeology endowed with great potential to reveal much of China's ancient history.. Half a century later, Chinese archaeology had made many unprecedented discoveries which surprised the world, leading Glyn Daniel to believe that "a new awareness of the importance of China will be a key development in archaeology in the decades ahead (Daniel 1981: 211).

inscribed oracle bones and enormous material remains were found through scientific excavation in Anyang in 1928, the historicity of the Shang dynasty was confirmed beyond dispute for the first time (Li, C. 1977: ix-xi).

Chinese archaeology: Past, present, and future (Chapter 1 ...

The archaeology of China is researched intensively in the universities of the region and also attracts considerable international interest on account of the region's civilizations. The application of scientific archaeology to Chinese sites began in 1921, when Johan Gunnar Andersson first excavated the Yangshao Village sites in Henan. Excavations from 1928 at Anyang, also in northern Henan, by the newly formed Academia Sinica by anthropologist Li Ji uncovered a literate civilization identified wi

Archaeology of China - Wikipedia

Of the 100 discoveries selected, 51% were made by scientific initiative, whereas 31% were made accidentally and 10% were rescue archaeology. More than half of the academic discoveries were made in the Yellow River region, reflecting the traditional view, held by most archaeologists until the 1980s, that the Chinese civilization originated there.
