The Walt Disney Company InSites The latest documentary on National Geographic raises such burning existential questions as: Does knowledge lead to more fears? and Do we need to be more worried about life on Earth than we already are? Sadly, the answer to both, at least after watching Virus Hunters, is a resounding "yes!"

"Virus Hunters," on Nat Geo, Reveals the Worst Could Be ...

In the last half-century the number of spillover viruses has quadrupled, costing countless lives. Typically, people learn about outbreaks as sudden disconnected flare ups. But these viruses have much in common: where they come from, how they maim and kill, and how they can be controlled. By telling deeply human stories of disease victims and health care workers, Virus Hunters: Stopping the Next Outbreak goes beyond the headlines to convey important, usable information about spillover viruses ...
