The self-help is a last chapter add on that is skimpy and not thought out. For example; step seven advises observing people's behaviour in a targeted city to determine the level of trust in the city but we are not advised to actually visit the city until step ten. The book is more successful as a review of some important global trends. Dr.

Who's Your City?: How the Creative Economy Is Making Where You Live the Most Important Decision of Your Life is a non-fiction book written by Richard Florida. The book advances Florida's previous work on the locational choices of people and businesses. He adds a dimension of environmental psychology by assigning psychological profiles to urban regions according to the dominant personality traits of the people who live there. For example, the New York metropolitan area and the ChiPitts area have
